Jim – How can you be revising the document if you don't know our concerns? Are you mixing this up with the write-up of the benthic risk layer for the FS?

Good afternoon Kristine, per our agreement the LWG is working on a revised draft of this document and should have it to you for review in early April, which will keep us on track to finalize this document by the end of April. I appreciate your offer to meet, and since this is such a focused topic I am assuming the attendees would be me, John Toll, Carl Stivers, Bob Wyatt, you and Elizabeth. Is there anyone else on your team who will be attending?

Jen will coordinate the logistics, and I propose we aim for the afternoon of April 16. Once we have your attendee list Jen will send out an email to that group to see if April 16 works for everyone. Do you prefer to meet in person or will a conference call suffice?

Thanks, Jim.

Bob and Jim – This is just a reminder that we wanted to complete this report by the end of April and as far as I know there has been no progress toward completing it. We would like to set up some time to meet with you to complete this document. Please let us know your availability to meet.

Thanks,

Kristine Koch
